**RESPONSE TO ELECTION OF SPECIES REQUIREMENT**

Director of the U.S. Patent and Trademark Office  
Washington, D.C. 20231

Sir:

In reply to the Election of Species Requirement mailed May 1, 2001, Applicant provisionally elects Species I, Figures 1, 3, 4 and 5 and Species A, Figure 2, claims 1-4 and 9. It is submitted that at least claim 1 is generic to all Species. The election is made with traverse.

It is respectfully submitted that the subject matter of all species is sufficiently related that a thorough search for the subject matter of the elected species would encompass a search for the subject matter of the remaining species. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which is stated that "If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions." (Emphasis added). It is respectfully submitted that this policy should apply in the present application to avoid unnecessary delay

and expense to Applicant and duplicative examination by the U.S. Patent and Trademark Office.

Respectfully submitted,
